

Practice Communities

Topic: Serving LGBTQIA2S+ Youth

Overview

Practice Communities engage in action oriented learning on a specific topic for the purpose of quality Improvement. Using structured sharing, problem solving, and collaborative commitment amongst providers invested in increasing knowledge and changing practice aimed at creating a supportive and affirming environment for LGBTQIA2S+ youth.

The Commitment

- Consistent cohort participant in 8 learning sessions on a single topic
- Small tests of change between sessions
- Participants share learning within their agencies
- Report out and sharing of practice guidance with whole provider group

The Content

- Creating a welcoming and affirming environment
- Understanding the needs of LGBTQIA2S+ youth
- Cultural competency and LGBTQIA2S+ youth
- LGBTQIA2S+ youth and community engagement
- Addressing bullying and harassment of LGBTQIA2S+ youth
- Gender affirming healthcare
- Selfcare for providers working with LGBTQIA2S+ youth
